

GroupLynk Employee Dialup Accounts

CyberLynk, a leader in the Internet service industry in SE Wisconsin and NE Illinois is pleased to offer our "GroupLynk" program. The program is available to CyberLynk customers that have contracted with us to provide them a dedicated Internet connection.

What is "GroupLynk?"

"GroupLynk" is a program that gives businesses the ability to provide employees 56K dialup Internet connections from their homes. With "GroupLynk," any business can provide individual dialup accounts to each employee at a fraction of the standard cost.

The "GroupLynk" program is typically used as an incentive or reward program for employees by providing them Internet access from home at a nominal cost or no cost at all to the employee.

Easy Management

The program is easy to manage through your own personalized web interface. As the administrator of the service for your business, you create/delete, control, and maintain all of the dial-up accounts. In addition, you have the ability to generate reports on your employee's connectivity history. If an employee forgets his/her password or you want to create an account for a new employee you simply login to the web interface! It's that easy!

Online Tutorials/Instructions

If you're the type of person that is intimidated by computers or is hesitant to get online, you need not fear! CyberLynk has a website full of online tutorials and FAQ's to answer questions and solve problems should they arise.

The tutorials explain everything from configuring a dialup account to configuring Outlook for email. If you don't see a tutorial that describes what you're trying to do and the FAQ's cannot answer your question, just send an email to support@cyberlynk.net and we will solve your problem. Visit <http://www.grouplynk.com> for more info.

Serving SE Wisconsin and NE Illinois since 1995

Free Email Services

Our "GroupLynk" program includes free email accounts for your employees. Employees can simply give us a call or send an email to support@cyberlynk.net and request an email account. If they have an Internet connection, they can go to either one of the following websites and sign up for their "Free" email account online.

<http://www.clsurf.com> <http://www.clmail.com>

GroupLynk Billing

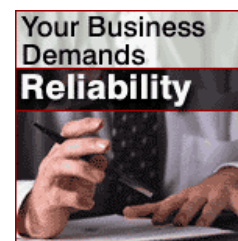

Your cost for each "GroupLynk" account is \$10.00 per month. This reduced rate represents a 65% savings on the standard monthly service charge. In addition, accounting is made easy because all "GroupLynk" accounts are billed monthly on a single invoice.

Cyberlynk Services

In addition to our "GroupLynk" program, CyberLynk provides a whole host of other business services. Those services include T1, Broadband DSL and Wireless, ISDN, Website Hosting, FTP, Spam/Virus Filtering, Colo, Website Design and Backup services.

Should you have any Internet related needs, don't hesitate to give us a call. If we can't provide you with a solution, we will find a reliable partner that can.
