Jeff has worked in Network Engineering for the Racine County MIS Department for the past 8 years before joining CyberLynk Network in the beginning of 2005. Currently Jeff oversees CyberLynk's Consulting division.

## Seminar Overview

**Learn how to troubleshoot Email, Website, FTP and DNS Related Issues.** You'll learn how the whole process works starting with domain registration all the way to getting the domain hosted with a provider.

**Learn Virus Identification and Removal techniques that will make your life easier.** You'll be given tips on how to easily identify virus issues and safely remove any virus from your network!

**Learn about pro-active solutions that will help your business move forward and save money.** We'll reveal simple tools and services that will make you more pro-active instead of re-active. Learn how to spend your IT dollars effectively.

**Technical Tips!** You'll be provided with a lot of handouts on many different subjects related to your networking and computer needs. These technical articles will help you make more informed

## Learn How To Effectively and Efficiently Troubleshoot!

The seminar is designed to provide you with an in-depth understanding of the common problems that Small Businesses deal with when connecting their network to the Internet. You'll leave with the necessary tools and know how to quickly troubleshoot the core problems every Small Business is faced with from time-to-time.

**The cost for the 3.5-hour seminar is only \$40.00 per person.** We're so confident that you'll like what's being presented that we've "**Guaranteed**" the seminar! If you're not completely satisfied with the seminar, we will give you a 100% refund, period! Seating is limited to 25 people. Register early and secure your seat!

**Register online by going to:**  
**<http://www.CyberLynk.net/Seminars> or call CyberLynk at 1-800-862-5965 and pay by credit card or mail in your check before it's too late.**

**Remember** – "If you continue to do things the way you have always done, you'll continue to get the results you've always gotten." Change and grow!
